	Electric Water pump with complete accessories High Capacity and Pressure: Specifically designed to deliver high capacities and deeper settings. Stainless Steel Pump Shaft: Hex design provides positive drive for impellers and eliminates clearance adjustments. Easy to Service: Can be taken apart for service by removing four bolts. Corrosion Resistant: Glass filled thermoplastic impellers. Stainless steel wear rings and coverplate. Electro-coated paint process applied inside and out and then baked on. Powered for Continuous operation. All ratings are within the motor manufacturer's recommended working limits. Easy to Prime: Top mounted vent plug allows air to escape from seal cavity during initial priming. Adjustable Automatic Pressure Control Valve: Guarantees maximum capacity at all times. Bypass check valve equalizes pressure in entire system and helps prevent loss of prime.
