	•The pump shall be submersible multi-stage centrifugal pump. All steel components are made in stainless steel, (AISI 304) that ensures high corrosive resistance. Pump can be operated continously without damage to the motor and are field serviceable with common tools and readily available repair parts. The motor shall be corrosion resistant stainless steel construction w/ built-in surge arrestor. Detailed specifications of the pump listed below:											
	• Impellers, diffusers and bearing spiders: glass filled engineered composites											
	• Bearings: Polymer mounted in Noryl bearing spider											
	• Rated power: 3 HP single-phase											
	• Input voltage: 220-240 V											
	• Frequency: 60 Hz											
	• Rated head: 170m											
	• Rated flow: 1.5m3/hr											
	• Discharge connection: 1-1/4" NPT											
	• Minimum well size:4"											
	CONTROLLER											
	•The controller shall compatible with the pumps. With built-in Magnetic Contractors, voltage relay, start capacitors, run capasitors, multiple knockouts, two ground terminal and manual reset overloads. Detailed specifications of the inverter listed below:
